

**We welcome postgraduate students from all nations to join our vibrant and diverse community,** whether you are continuing your studies having just graduated or are returning to study after working for a while.

Each Sunday, we meet for cross-cultural fellowship and thoughtful Bible study discussions, seeking to understand how the unchanging truths of God's word apply to our rapidly evolving and increasingly globalised world. We aim to deepen our knowledge of God through the Scriptures so that we may think biblically in our studies and work purposefully in our future careers. This year, why not invest in growing your faith, even as you develop your academic specialism, and take the opportunity to learn how to better live out the authentic gospel and reach out to an unbelieving world.
